THE INTELLIGENCER. WHEELING, NOVEMBER 4, 1899.

Elections Next Tuesday. A number of states will hold election next Tuesday, but of the number the results in Ohlo, Kentucky, Nebraska and Maryland will be more significant as having a possible bearing on the national contest next year. The situation in Ohio at the present writing is encouraging in every respect for the Republicans, The canvass has been a most thorough one and Judge Nash has made an excellent impression wherever he has ap peared. The party is united with the exception of the sulking of the Bush-nell-Kurtz-McKisson combination, but this is offset by the defection from Mc-Lean on account of his warfare on Thurman, Pendleton and Ward The Democratic candidate, who is familiar with all political trickery and the desperate methods of the ward heeler, has been conducting a campaign of misrepresentation of the most reprehensible haracter. Mr. McLean has many enemies in his own party who have been patiently waiting for the opportunity, that is now at hand, to pay off their scores. Jones is an uncertain factor in the fight, but will draw more from Mc-Lean's forces than he will from Nash. According to the most conservative calculations the Republicans ought to win by some 22,000 to 25,000 votes, but the awful uncertainties of politics may cut the figures down or add to them.

The Maryland fight has been very animated, and the Republicans hope to pull through by a handsome majority. as they have the aid of the Sound Money Democratic organization, they having declared that they will extend no aid or comfort to a ticket that stands

for the Chicago platform.

If the infamous Goebel election law were eliminated from the contest in Kentucky there would be no doubt of a Republican triumph in that state. As it is they may put in enough ballots, but in the counting they may be cheated out of a well-earned victory.

In Nebraska the Republicans are hopeful of success, and have reasonable grounds for anticipating the election of their candidates. The state was never so prosperous in spite of all Mr. Bryan is doing to make the people think other-wise. The Democratic situation in that state is certainly critical as Bryan has been on the jump for two weeks, speaking night and day exploiting his peculiar views and making a personal appeal to the voters. Defeat in Nebraska would mean a great deal to the aspirations of William Jennings Bryan, but his success would not greatly disturb the country at large.

Results of Dingley Tariff.

Under adverse circumstances the Dingley tariff law has made a remarkable showing as confirming the Republican views of that measure. In com parison with the Wilson law it is far and away ahead of it, this in spite of the fact that an immense amount of goods was shipped into the country be fore the Dingley law went into effect, thus escaping the duties. The customs receipts during the first two years of the existence of the Dingley law were \$40,000,000 more than during the same time under the operations of the Wilson

The Philadelphia Press in comparing the effects of the two measures says: "The actual value of foreign imports under the Dingley law have been more than \$100,000,000 per year less than dur-ing the period of the existence of the Wilson law. The heaviest imports in any month under that law between Au gust, 1895, and August, 1897, were \$101. 260,000, and the largest total since the Dingley law went into effect in a single month was \$72,800,000, a difference of nearly \$1,000,000 per day. The Dingley bill not only caused a large diminution in the use of foreign material and manufactures in this country, but under I the exports of merchandise rose to th highest point known. Instead of destroying the foreign trade, as was so freely predicted by the free traders, the excess of merchandisc exports has risen to the unprecedented and magnificent

additional internal taxes were necessary. It is to be noted that the increase in the exports of manufactures by the notorious 'Squira Abingdon' which is a loan society, that is to se-

has gone on with accumulated rapidity, Baird, a promoter of prize fights and and will, this calendar year, reach probably \$375,000,000, or nearly \$100,000,000 more than in 1897.

To-day every wheel is turning in the United States, labor is fully employed, price has recovered to a profitable point in'all the important industries, and the over the matter, considering the whole happiest and most prosperous of commercial conditions promises to continue herself over the advertising for an indefinite period." "affair" is bringing her.

Solving a Great Problem.

We have before us in pamphlet form the very interesting as well as instruc-tive report of Booker T. Washington, principal of the Tuskegee normal and industrial institute, to the board of trustees. It shows that most excellent results have been obtained in this remarkable school, which educates the ands as well as develops the intellect. Professor Washington, in his report, nakes many sensible observations. too many cases where mere literary education alone has been given the aggerated estimate of his importance in the world, and an increase of his wants which his education has not fiteducation of all classes. In speaking of this feature of the in-

stitution at Tuskegee, Professor Washweak position. "For example," laundry work at home. The same girl its own shortcomings, as it is sadiy fall cation she was not prepared to do laundry work, and could find nothing else to do that was within keeping with the cost and character of her education, and we must not be surprised that she turers, what will the securing of the did not fulfill expectations. What should have been done in the case of the individual referred to, was to have given, along with her academic educa-tion, thorough training in the latest and is more serious than the disaster to best methods of laundrying, so that she English arms at Ladysmith. would have been able to put so much intelligence and dignity into it that she could have lifted it above drudgery and performed more work with less labor. In this way this girl would have been put into a position where her services would have been so much in demand that she could have laid the foundation of a home that would have enabled her offspring to have taken a more respon sible station in life."

In regard to the race problem in the Professor Washington thinks south. that Tuskegee methods will solve it in time. On this subject he remarks with some force and conviction: "I canno but believe, and my daily observation and experiences confirm me in it, that as we continue placing men and women of intelligence, religion, modesty, con-science and skill in every community in the south, who will prove by actual results their value to the community that this will constitute the solution fo many of our present political and sociological difficulties."

Catching at Straws.

The Democratic party, or rather those who oppose the operations of the United States in the Philippines, catch at some very fragile straws in flounder ing around for arguments to bolster up their position. These self appointed guardians of the integrity of the De claration of Independence and defend ers of Againaldo are now harpnig on what they are pleased to term the ini quity of recognizing polygamy in the Sulu islands. As usual they are dis honest in their assumptive indignation. They only treat with a part of the question. It is the braying of the same old Democratic ass, whose ears keep growing longer with the passing years. What would the Democrats do with the Sulus under the treaty?

The Washington Post comes to the point in stating a fact of history. says: "Has it occurred to Mr. Bryan, or to any of the politicians whose religious sentiments are outraged by the Sulu treaty, and especially the forty-dollastipend of the harem-keeper, that we have a precedent for all that, not in our insular possessions, not among our Indian wards, but among Caucasian Americans in one of our territories that is now a state? Only a few years ago at a time within the memory of citi zens who are not old, a polygamist, a man of many wives, a professed be llever in Christianity, the head of a polygamous people united under th name of "The Church of Jesus Christ," was appointed by the President and onfirmed by the senate as governor of Utah. The United States paid him salary large enough to support his twenty or more wives in good style and employ a number of harem-keepers. Inasmuch as that was tolerated here only a short time ago, need we get terribly excited about a harem-keeper among the Mohammedans whom treaty of Paris-the treaty favored by the Democratic leader-placed under

our control in the orient?"

Langtry's Comedy. Lily Langtry has thrown over her new husband, a callow youth, who really believed that the actress was capable of an honest affection. The young man is to be pitied in one sense, inasmuch as he gave up everything for the Lily,

Imes.

The Democratic party—so called in West Virginia—is at present constituted of entirely dissimiliar elements, and the plan to unite these various elements into the genuine simon pure article has not yet been fully avolved, but the "smart" politicians who hold office and emolument higher than principle are in labor now and hope to bring forth an infant that will combine all the virtues of gold Democrats, Silver Democrats, MacCorkle-Chilton Democrats, McGraw Democrats, anarchist Democrats, McGraw Democrats, answell as loyal, patriotic Democrats into one unloady. It is unquestionably a difficult task, but the reward is to be the offices for the crowd that first thinks out the successful scheme.

Colonel McGraw had the thing going at one time, and everything looked serene, but somebody started "rough house! and the whole outfit went to pieces—harmony, offices and all. It now appears that another crowd are about to be "it."

If everybody will agree, the re-habilitation shall be by way of mixed pickles, with the following ticket; John H. Holt, for governor; Colonel Jim Henry Miller, for suditor; John Howard, for attorney general, and Henry M. Russell and D. C. Westenhaver for supreme court. This means the abdication of McGraw, and while it is a decent lot of men, it ought to set on the average Democratic stomach about tilke crabs and sweet milk, or ice cream and cucumbers, and be as harmonious as a cage full of parroits and monkeys, cais and dogs, bulls and red rags.—McDowell Recorder.

REFLECTIONS OF A BACHELOR.

The great are always self-conscious

Gawf is shinny that giris can play at without getting their legs hurt.

A man never gets through paying a boy to rake up the leaves till it's time to go and buy a new snow shovel. When a man gets married "before he knows it," it is generally to a woman who knows it before she gets married. Nothing a baby has when it is born is much use to it. Even its hair all har to drop out and come in again before it keeps.—New York Press.

Good afternoon, madam.

cago Tribune. Old-Time Husking Bees. Memory often takes an outing
From the present passing show,
Spreads her pinjons and goes scouting
To the scenes of long ago
Back unto the fun and troile
Of the rural sports and plays,
Pleasures charmingly bucoile
That were ours in younger days,
And the very chief of these
Were the country husking bees.

On the old barn floor we'd gather,

Now and then the air was riven
With a shout that 'd wake the
Telling that the steel shad give
Some will come an ear of red.
The steel shad give
Mid the husks upon the floor.
After which the girt would snuggle
To him closer than before.
Hushing to her finer tips
From the thrill born on her lips,

How the happy ploture lingers
With us through the fleeting years,
Of the wy the oll-scarred fingers
Sintched the lackets from the ears
Of the flashing lanterns hanging
Round, and casting flickers o'er
Merry dancers who were banging
Dust from out the old harn floor,
As the fiddler jerked his bow
Muscularly to and fro.

Every day I hear the singing Of some dear old rural ode. Mody of youth-days ringing Through our mountain-land abode. Through our mointain and about.
And my loving glances wander
To that happy wifely face
That I learned to jove back yonder
In that far east country place.
She is all the world to me:
Found her at a husking bee.

HUNTING IN GERMANY.

How a Wheeling Boy Distinguished Himself in a Chance Shot.

Morgan Ott Heiskell writes to his nother in this city, from Dresden, Germany, the following interesting bit of news about his hunting feats in the preserves of a wealthy German, near that city: About ten days ago, Mills and I were invited out to a shoot of quite a wealthy German. He met us at the train with his brother, and at the end of the railroad trip, his shooting tran met us and took us to the lodge. It was right in the middle of 80,000 acres of the finest shooting in Germany. The two Herr Hessler only stayed two days, during which time the writer disgraced himself by not shooting anything larger than hares and rabbits Mills and the other two killed enough deer, roebuck, and wild boar to supply the German army.

After two days the Herr Hessler went

back to Berlin and left Mills and me in full command. Then it was that the young hopeful created the sensation of the whole story.

For years there had been a fourteen point stag often seen, and occasionally shot at, but never with any results.

The first night after the Hesslers had

gone, the head forester took us out and put us up in our respective blinds in the trees, where you have to sit the whole cold night, and look for things to shoot

cold night, and look for things to shoot at.

The forester had hardly disappeared in the darkness than I buttoned up my shooting coat around my ears, and made all preparations to hunt for wild boars in the land of dreams.

I snoosed away for a couple of hours, when the thumb of Kismet woke me up. I pushed aside some of the leaves and peeped round the clearing that I was supposed to watch. Thunder! I nearly shook the bilind down with excitement. There on the other side of

nearly shook the blind down with excitement. There on the other side of the clearing in the moonlight stood a stag, his head up in the air, sniffing and pawing, challenging the trees and all stars to mortal combat.

I didn't take time to meditate on his beauty, or count the humber of points, but grabbed my gun, which, by the way, was loaded with dynamite explosive shell in one barrel, and buck-shot in the other, and let go both barrels point blank.

I didn't feel it at the time, but I I didn't feel it at the time, but I

point blank.

I didn't feel it at the time, but I have the marks of that double discharge on my shoulders now.

Then there was trouble around there for awhile. The stag jumped fifty feet in the air, and lit out for the forest, my hound on its heels, and the other two making tracks in that direction. The hound cought him about fifty feet in the information of a beautiful fight. The hound won without my assistance, and after I had cut the stag's throat. I started to count the points.

One, two, three. What's this' t counted again, and then again. And then I came to the full realization that I had shot the "vierzeheuter." the famous fourteen pointer! And it might have been a jack rabbit, for all of m I had had enough glory for on night, and was for going home, but the forester wouldn't hear of it. There was lots of game out that night, he said. So back I crawled, up, up the tree, and waited and patted myself on the back. Sure enough, very soon I caught sight of a doe, that I concluded was the mate of the stag, and I determined to kill her, to keep her from worrying about her husband. This time I took deliberate aim, and pulled the trigger-well, I had forgotten to load again. Jaros Hygien-

Must Cense Fighting First. Nashville American: When the Tag-alos and others cease fighting, when they recognize the authority of the United States, then the question what we will do with the islands legitimately arises. But until then this question cannot arise and cannot be answered by any except Congress. Mr. Bryan is right in saying our troops must be supported; that they cannot retire besupported; that they cannot retire be-fore an armed enemy, and that cessa-tion and surrender by Filipinos must be insisted upon. But when he talks of promises which should have been made, policies which should have been announced, he abandons the situation, departs from facts and existing condideparts from facts and existing condi-tions and drops into theory. The time for theorizing is past. The time for suppressing the insurrection and ceas-ing to coddle the Filipinos as a lot of naughty children has come. When they lay down their arms Congress can properly and wisely decide as to their future relations with the United States.
